

Group name: Coca gang

Group member: Donglin Yu (218223396)

Lin Guan (217456765)

Introducing:

Donglin do the web, code, test. Lin Guan sometimes meeting with Donglin, but their opinions were different. So Donglin is coding for his idea himself.

website introducing:

A web page made by donglin who likes anime characters and drinks coke. He wants everyone to drink an ice Coke in the hottest part of the summer. Even his favorite anime characters drink this bottle of ice Coke. So he hopes someone else can get this bottle of Coke by scanning his favorite anime character. Prepare a glass on the left side of your screen to enjoy this bottle of Coke!

Phase3 checkpoint

1. QR code submitted for printing – send to prof and on github.
2. The Group Meeting with me - meeting on 04/17.
3. Set of videos and photos documenting the experience and all working components - in videos and photos document folder under gh-pages branch.
4. The live website at gh-pages branch AND QR code to custom Group landing page and AR activation - all in gh-pages branch.
5. Instructions, introduction, theme, story etc. as documentation on landing webpage - have those in website.
6. One of the following - custom markers, printed.
7. a clean and organized repo - Yes.
8. GitHub commits of content from each group member - only me working but I enjoy the challenge
9. PDF file of Group Project information - more comprehensive than the website landing page including - everything in this pdf.
10. Also to be evaluated is the final project experience and functionality
